Name of the project: Sanitation Intervention in Puri district

| | |
|--|---|
| <p>A brief overview of the Projects</p> | <p>Sanitation intervention in Puri district supported by Water Aid, a UK based charity, is a unique project of different nature. It is implemented by UAA through a consortium of 6 Network Partner Organisation. After completion of construction in 50 villages during 1st phase another knowledge partner i.e. the London School of Hygiene and Tropical Medicine (LSHTM) will undertake study on impact of exclusive toilet use on health status of women and children. The toilets of BPL households constructed under the project will be subsidised by District Water and Sanitation Mission. The fund generated thereof will be utilised to subsidise for the real poor families whose names were not enrolled in Govt. Enlisted BPL families supplied by DRDA. Also the rest of the funds will be used for IEC activities in rest 50 villages earmarked for 2nd phase.</p> |
| <p>Objectives</p> | <p>Promotion and construction of individual HH toilet in 100 villages of Puri district in two phases.</p> |
| <p>Strategies</p> | <p>This will be implemented by a consortium of NGO partners identified by UAA. Formation of village water sanitation committee (VWSC). Training and skill building of VWSCs. Rigorous IEC intervention and community mobilisation. Creating a cadre of skilled masons to undertake low cost water seal toilets. Involvement of various stakeholders both govt. And non govt. In the process of PIME. LSHTM will undertake study using different parameters engaging its band of researchers. The process documentation will be carried out by Xavier School of Management, Bhubaneswar.</p> |
| <p>Target groups</p> | <p>All families in 100 villages identified by LSHTM where toilet coverage is below 10% before project starts.</p> |
| <p>Area covered</p> | <p>100 villages in 7 Blocks of Puri districts</p> |
| <p>Broad activities</p> | <p>Village contact Drive Involvement of schools, SHGs, PRIs, Govt. Grassroots functionaries, IEC activities as required. Construction of Individual Household Toilets with community Participation. Campaign for usage and maintenance as well as</p> |

| | |
|-------------------------------------|--|
| | improvement. Documenting process of implementation and dissemination (by: LSHTM, UK & XIM- Bhubaneswar). |
